144

Victims of Domestic Violence

*Due to the pandemic, communities altered their PIT count practices and persons experiencing sheltered and unsheltered homelessness interacted with the system in ways much different than in the past. These changes varied County-by-County and can be seen in the number of persons identified as experiencing sheltered and unsheltered homelessness.

Black, non-Hispanic/Latino are **overrepresented** — 14.5% of the total population, yet account for 40.3% of the population experiencing homelessness.

[†] Sheltered homelessness includes all persons in emergency shelter and transitional housing.
